

Introduction

1. TigerWit Limited (hereinafter referred to as 'TigerWit', the 'Firm' or the 'Company') is incorporated (Certificate of Incorporation No. 198255B) in The Commonwealth of The Bahamas. Our registered office is Sea Sky Lane, Sandypoint, P. O. Box SP 64368. Nassau, The Bahamas. TigerWit is authorised and regulated by the Securities Commission of The Bahamas (licence No. SIA-F185).

2. This Order Execution Policy (hereinafter the "Policy") forms part of the Client Agreement. Therefore, by entering into the Client Agreement with the Firm, you are also agreeing to the terms of our Order Execution Policy relating to financial instruments provided by the Firm, the contract specifications of which are available online at <https://global.TigerWit.com> (the "Financial Instruments"), as set out in this document.

Unless otherwise defined, any defined terms in this Policy will have the same meaning given by SCB regulations.

Scope and Services

1. The Policy applies to all clients, retail and professional.

2. This Policy applies when executing transactions in the Financial Instruments provided by the Firm. The Financial Instruments provided by the Firm are Contracts for Difference. It is up to the Firm's discretion to decide which types of Financial Instruments to make available and to publish the prices at which these can be traded. The Firm, through its trading platform, provides the client with live streaming prices, "Quotes", along with a breakdown of the available volumes ("market depth") as received from its third-party liquidity providers. The Firm is always the counterparty (or principal) to every trade; therefore, if the Client decides to open a position in a Financial Instrument

with the Firm, that position can only be closed with the Firm.

Order Type Definitions Please refer to Appendix I
Execution Elements Prices

TigerWit receives price feeds from some of the world's leading liquidity providers. Having multiple liquidity providers is important especially during abnormal market conditions, such as times of extreme volatility. Under these conditions and even if a certain number of liquidity providers decide to widen the spreads or stop quoting prices at all, the Firm is still able to provide clients with competitive prices which for the trading platforms include TigerWit's mark-up. The remaining liquidity providers shall continue competing to provide TigerWit the best 'bid' and 'ask' prices.

Re-quoting

This is the practice of providing a secondary quote to the client after an 'instant order' has been submitted; the client must agree to this quote before the order is executed. TigerWit will re-quote 'instant orders' if the requested price originally specified by the client is not available. The secondary quote provided to the client is the next available price received by TigerWit from its thirdparty liquidity providers. TigerWit does not requote 'pending orders'

Slippage

At the time that an order is presented for execution, the specific price requested by the client may not be available; therefore, the order will be executed close to or a number of pips away from the client's requested price. If the execution price is better than the price requested by the client this is referred to as 'positive slippage'. In contrast, if the execution price is worse than the price requested by the client this is referred to as 'negative slippage'. Please be advised that 'slippage' is a normal market practise

Risk Warning: CFDs are leveraged products and can result in the loss of all invested capital. Please consider our ['Risk Disclosure Notice'](#).

and a regular feature of the foreign exchange and stock markets under conditions* such as illiquidity and volatility due to news announcements, economic events and market openings. TigerWit's automated execution software does not operate based on any individual parameters related to the execution of orders through any specific client accounts.

* Please note that this is not an exhaustive list.

Partial fills This is the practice of executing an order in parts if there is not enough liquidity in the market at the time in order to fill-in the full order at a specific price. Partial fills may be executed at different prices.

Commission

Clients may be charged commission when trading CFDs on forex and metals through the platform. Further information is available online at: <https://global.TigerWit.com>.

Mark-up

Clients shall be charged a mark-up on spread when trading CFDs on forex, metals, oil, equities, indices and futures through the trading platform. Further information is available online at: <https://global.TigerWit.com>.

Order Type

Execution Instant Order(s)

Instant Order: this is an order to either buy or sell at the 'ask' or 'bid' price (respectively) as it appears in the quotes flow at the time the client presents the order for execution.

Pending Order(s) Stop Orders

This is an order to buy or sell once the market reaches the 'stop price'. Once the market reaches the 'stop price' the 'stop order' is triggered and treated as a 'market order'*. If the 'stop order' is not triggered it shall remain in the system until a

later date subject to the conditions described in the 'Good 'til Cancelled' section. For CFDs on FX, spot metals, equities, indices and futures, 'stop orders' should be placed a minimum number of pips away from the current market price in order for these to be valid. Stop Orders placed within the current bidask spread will be automatically removed.

Stop Loss

This is an order to minimise losses. Once the market reaches the 'stop loss price' the order is triggered and treated as a 'market order'*. If the 'stop loss' is not triggered it shall remain in the system until a later date. For CFDs on FX, spot metals, equities, indices and futures, 'stop loss' orders should be placed a minimum number of pips away from the current market price in order for these to be valid. 'Stop Loss' orders placed within the current bid-ask spread will be automatically removed.

Limit Orders

This is an order to buy or sell once the market reaches the 'limit price'. Once the market reaches the 'limit price' the 'limit order' is triggered and executed at the 'limit price' or better. If the 'limit order' is not triggered it shall remain in the system until a later date subject to the conditions described in the 'Good 'til Cancelled' section. For CFDs on FX, spot metals, equities, indices and futures, 'limit orders' should be placed a minimum number of pips away from the current market price in order for these to be valid. Limit Orders placed within the current bid-ask spread will be automatically removed.

Take Profit

This is an order to secure profits. Once the market reaches the 'take profit price' the order is triggered and treated as a 'limit order'. If the 'take profit' is not triggered it shall remain in the system until a later date. For CFDs on FX, spot metals, equities, indices and futures, 'take profit' orders should be placed a minimum number of pips away from the

Risk Warning: CFDs are leveraged products and can result in the loss of all invested capital. Please consider our ['Risk Disclosure Notice'](#).

TigerWit Financial Services Limited

current market price in order for these to be valid. 'Take Profit' orders placed within the current bidask spread will be automatically removed.

* Market Order

This is an order to buy or sell at the current market price that is available. The system automatically aggregates the volume received from third party liquidity providers and executes the 'market order' at VWAP ('Volume-Weighted Average Price') that is the average and best available price at the time of the execution. Once the 'market order' is triggered it shall be subject to the conditions described in the 'Good 'til Cancelled' section.

Good 'til Cancelled ('GTC') (= Expiry)

This is an execution setting that the client may apply to 'pending orders'. The order may remain 'live' and pending for execution until such time as the order is triggered and treated as a market order or cancelled by the client.

Pending Order Modification/Cancellation

The client may modify/ cancel a 'pending order' if the market did not reach the level of the price specified by the client.

NOTE: Most of the orders shall be automatically executed by TigerWit's trading platform, as described above. But it should be noted that TigerWit reserves the right, at its absolute discretion, to manually execute in whole or in part an order of 100 lots or above, for major currency pairs. The same practice applies for orders of a significant size for minor currency pairs. In addition, orders may be manually executed at the discretion of the Firm in the event of a reasonable suspicion of arbitrage practices unrelated to market inefficiencies, including, but not limited to, latency arbitrage and swap arbitrage.

Market Order(s) Market Order

This is an order to buy or sell at the current market price that is available. The system automatically aggregates the volume received from third party liquidity providers and executes the 'market order' at VWAP ('Volume-Weighted Average Price') that is the average and best available price at the time of the execution.

Pending Order(s) Stop Orders

This is an order to buy or sell once the market reaches the 'stop price'. Once the market reaches the 'stop price', the 'stop order' is triggered and treated as a 'market order'*. If the 'stop order' is not triggered it shall remain in the system until a later date subject to the conditions described in the 'Good 'til Cancelled' section. 'Stop orders' can be placed as close to the current market price as possible; there is no restriction.

Stop Loss

This is an order to minimise losses. Once the market reaches the 'stop loss price' the order is triggered and treated as a 'market order'*. If the 'stop loss' is not triggered it shall remain in the system until a later date. 'Stop loss' can be placed as close to the current market price as possible; there is no restriction.

Stop-Limit Order

Shall mean an order that combines the features of stop order with those of a limit order. A stop-limit order will be executed at a specified price (or better) after a given stop price has been reached. Once the stop price is reached, the stop-limit order becomes a limit order to buy (or sell) at the limit price or better.

* Market Order (Applicable for 'Stop Orders' and Stop Loss')

This is an order to buy or sell at the current market price that is available. The system automatically aggregates the volume received from third party liquidity providers and executes the 'market order'

Risk Warning: CFDs are leveraged products and can result in the loss of all invested capital. Please consider our ['Risk Disclosure Notice'](#).

TigerWit Financial Services Limited

at VWAP ('Volume-Weighted Average Price') that is the average and best available price at the time of the execution. Once the 'market order' is triggered it shall be subject to the conditions described in the 'Good 'til Date' and 'Good 'til Cancelled' sections.

Good 'til Cancelled ('GTC') (= Expiry)

This is an execution setting that the client may apply to 'pending orders'. The order may remain 'live' and pending for execution until such time as the order is triggered and treated as a market order or cancelled by the client.

Good 'til Date ('GTD')

This is an execution setting that applies to 'pending orders' traded through the trading platform. The client may choose a specific date in the future until which the order shall remain 'live' and pending for execution. If the order is not triggered during this pre-determined timeframe it shall be deleted from the system.

Limit Orders

This is an order to buy or sell once the market reaches the 'limit price'. Once the market reaches the 'limit price' the order is triggered and executed at the 'limit price' or better. If the limit order is partially filled, a new Limit order will be automatically created for the outstanding volume and executed once the market price reaches the originally requested 'limit price'. If the 'limit order' is not triggered it shall remain in the system until a later date subject to the conditions described in the 'Good 'til Cancelled' section. For CFDs on FX, spot metals, equities, indices and futures, 'limit orders' should be placed a minimum number of pips away from the current market price in order for these to be valid. Limit Orders placed within the current bidask spread will be automatically removed.

Take Profit

This is an order to secure profits. Once the market reaches the 'take profit price' the order is triggered

and treated as a 'limit order'. If the 'take profit' is not triggered it shall remain in the system until a later date. For CFDs on FX, spot metals, equities, indices and futures, 'take profit' orders should be placed a minimum number of pips away from the current market price in order for these to be valid. 'Take Profit' orders placed within the current bidask spread will be automatically removed.

Pending Order Modification/ Cancellation

An order can be modified by the client if the market did not reach the price level specified by the client and the order was not cancelled in the meantime.

An order will be cancelled in the event any of the following occurs: a. if a client manually cancels an order prior to the market reaching the price level specified by the client; or b. if a client places an expiration time frame and this is reached; For further details, please refer to Appendix II

Instant Order(s)

(Instant) Market Order

This is an order to buy or sell at the current market price that is available. The system automatically aggregates the volume received from third party liquidity providers and executes the 'market order' at VWAP ('Volume-Weighted Average Price') that is the average and best available price at the time of the execution.

Pending Order(s) Stop Orders

This is an order to buy or sell once the market reaches the 'stop price'. Once the market reaches the 'stop price', the 'stop order' is triggered and treated as a 'market order*'. If the 'stop order' is not triggered it shall remain in the system until a later date subject to the conditions described in the 'Good 'til Cancelled' section. 'Stop orders' can be placed as close to the current market price as possible; there is no restriction.

Stop Loss

Clients holding short positions on the ex-div date will be charged the dividend amount in the form of a cash adjustment (withdrawal).

NOTE: Stocks may be offered as a dividend. The dividend amount should be calculated using the share price to determine the cash adjustment (see fractional share adjustments).

Fractional Share Adjustments

In the event the corporate action results in a fractional position, the fractional component may be represented as a cash adjustment independent of the handling for the non-fractional position. The adjustment value will equal the fractional position times the adjusted closing price on the day prior to the ex-date.

Stock Splits

Normal Stock Split

As there is no impact on the company's market capitalisation the action carried out is to reflect the clients existing share position using the split ratio announced. Please see our website for more information: <https://global.TigerWit.com>.

Reverse Stock Split

There is no impact on the company's market cap and the clients' positions need to be amended to reflect the new share price. Please see our website for more information: <https://global.TigerWit.com>.

Rights Issue

Results in one of the following: Delivery of right security, issuance of CFD on the right or cash adjustment.

Although a rights issue will give the client an option of purchasing the share at a discounted price, the share price will be reduced also as the additional share will dilute the share value. Action to prevent shorting of share after announcement

Best Execution

1. The Firm shall take all reasonable steps to obtain the best possible result for its clients taking into account the following factors when executing Clients orders against the Firm's quoted prices. Prices, costs and currency conversion carry the highest importance when executing transactions for our clients.

2. Price

a) Bid – Ask Spread: For any given Financial Instrument, the Firm will quote two prices: the higher price (ASK) at which the client can buy (go long) that Financial Instrument, and the lower price (BID) at which the client can sell (go short) that Financial Instrument; collectively referred to as the Firm's prices. The difference between the lower and the higher price of a given Financial Instrument is the spread which for trading platform includes TigerWit's mark-up.

b) Pending Orders: Such orders as Buy Limit, Buy Stop and Stop Loss/Take profit for opened short position are executed at ASK price. Such orders as Sell Limit, Sell Stop and Stop Loss/Take profit for opened long position are executed at BID price.

c) The Firm's price for a given Financial Instrument is calculated by reference to the price of the relevant underlying financial instrument, which the Firm obtains from third party liquidity providers. The Firm updates its prices as frequently as the limitations of technology and communications links allow. The Firm will not quote any price outside Firm's operations time (see execution venue below) therefore no orders can be placed by the Client during that time.

d) For ECN platforms, trades prices are obtained directly from the liquidity providers through an electronic execution system. This system automatically requests a quote from a selection of

Risk Warning: CFDs are leveraged products and can result in the loss of all invested capital. Please consider our '[Risk Disclosure Notice](#)'.

TigerWit Financial Services Limited

liquidity providers. In conjunction with the price, the Firm quotes the available liquidity, (or 'market depth'), as obtained from its third-party liquidity providers. The Firm's software will automatically aggregate all available liquidity at the best possible prices available and fill at the VolumeWeighted Average Price (VWAP).

Costs

3. For opening a position in some types of Financial Instruments the Client may be required to pay commission or other fees, if applicable; these amounts are disclosed in the contract specifications available in the Firm's website.

a) Commissions: Commissions will be charged as a fixed amount and can be found on the Firm's website at <https://global.TigerWit.com>.

b) Financing Fee: In the case of financing fees, the value of opened positions in some types of Financial Instruments is increased or reduced by a daily financing fee "swap" throughout the life of the contract. Financing fees are based on prevailing market interest rates, which may vary. Details of daily financing fees applied are available on the Financial Instruments Contracts Specifications section in the Firm's website.

For all types of Financial Instruments that the Firm offers, the commission and financing fees are not incorporated into the Firm's quoted price and are instead charged explicitly to the Client account.

4. Currency Conversion

The Firm may provide a currency conversion quote from the Client's base currency to the currency of the relevant Financial Instrument. This will not reflect and actual conversion of currency in the Client's account, and serves the purpose of calculating consideration in the base currency only.

Speed of Execution

5. The Firm places a significant importance when executing Client's orders and strives to offer high speed of execution within the limitations of technology and communications links. The use of wireless connection or dial-up connection or any other form of unstable connection at the Client's end, may result in poor or interrupted connectivity or lack of signal strength causing delays in the transmission of data between the Client and Firm's when using the Firm's electronic trading platform.

Likelihood of Execution

6. The Firm relies on third party liquidity providers for prices and available volume, therefore execution of the Client's orders will depend on the pricing and available liquidity of the providers. Although the Firm executes all orders placed by the Clients, it reserves the right to decline an order of any type.

Orders

Market Order, Buy Limit, Sell Limit, Sell Stop, Buy Stop, Stop Loss, Take Profit on Financial Instrument are executed in the manner explained in 'Order Execution' section above. It should be noted that the price at which a trade is executed at may vary significantly from original requested price during abnormal market conditions. This may occur, for example, at the following cases:

a) During Market opening times, b) During news times, c) During volatile periods where prices may move significantly up or down and away from declared price, d) Where there is rapid price movement, if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange, trading is suspended or restricted, e) If there is insufficient liquidity for the execution of the specific volume at the declared price,

Risk Warning: CFDs are leveraged products and can result in the loss of all invested capital. Please consider our '[Risk Disclosure Notice](#)'.

TigerWit Financial Services Limited
(registered company number 198255B)
Sea Sky Lane, Sandypoint, P. O. Box SP 64368. Nassau, The Bahamas

TigerWit Financial Services Limited is authorised and regulated by the Securities Commission of The Bahamas (registration SIA-F185).

Email: support@tigerwit.com

7. The Firm strives to provide the best possible price to its clients, and makes every effort and necessary arrangements to do so.

Likelihood of Settlement

8. The Firm shall proceed to a settlement of all transactions upon execution of such transactions.

Size of Order

9. The minimum size of an order is 0.01 lots on the trading platforms. Although there is no maximum size of an order where the Client can place with the Firm, the Firm reserves the right to decline an order as explained in the agreement entered with the Client.

The Firm makes every effort to fill the order of the client irrespective of the volume. However, if this is achieved, it may be at the best available price, as the market liquidity may allow at the time of execution (See 'Likelihood of Execution').

10. TigerWit reserves the right to place a cap on the number of contracts and/ or limit on the total net position value per profile for a specific instrument. In such an event, the Firm will undertake all possible efforts to notify clients prior to such an event.

Market Impact

11. Some factors may affect rapidly the price of the underlying financial instruments from which the quoted firm price for its Financial Instruments is derived. These factors may influence some of the factors listed above. The Firm will take all reasonable steps to obtain the best possible result for its Clients.

The Firm does not consider the factors at paragraphs 3.2 to 3.9 exhaustive and the order in which the above factors are presented shall not be taken as priority factor.

Nevertheless, whenever there is a specific instruction from the client the Firm shall make sure

that the Client's order shall be executed following the specific instruction.

The Firm will determine the relative importance of the above factors by using its commercial judgment and experience in the light of the information available on the market and taking into account the criteria described below:

- (a) the characteristics of the client including the categorisation of the client as retail or professional
- (b) the characteristics of the client's order
- (c) the characteristics of the underlying financial instruments that are the subject of that order
- (d) the characteristics of the execution venues to which that order can be directed

The best possible result for a client shall be determined in terms of the total consideration, representing the price of the financial instrument and the costs related to execution, which shall include all expenses incurred by the client which are directly related to the execution of the order.

Execution Venues

Execution Venues are the entities with which the orders are placed or to which the Firm transmits orders for execution. For the purposes of orders for the Financial Instrument provided by the Firm, the Firm acts as Principal and not as Agent on the Client's behalf at all times; although the Firm may transmit your orders for execution to third party liquidity providers through its Electronic Communication Platform, contractually the Firm is the sole counterparty to your trades and any execution of orders is done in the Firm's name, therefore the Firm is the sole Execution Venue for the execution of the Client's orders.

1. The Firm operation time: round-the-clock from 22:00:01 GMT Sunday through to 22:00:00 GMT Friday. Non-working periods: from 22:00:01 GMT Friday through 22:00:00 GMT Sunday. Holidays will

be announced through the internal mail of the trading terminal supplied by the Firm.

2. The Firm places significant reliance to the above Execution Venue based on the above-mentioned factors set out at paragraph 3 and their relative importance. It is the Firm's policy to maintain such internal procedures and principles in order to determine the relative importance of these factors and to act for the best interest of its Clients and provide them the best possible result (or "best execution") when dealing with them.

3. The Client acknowledges that the transactions entered in Financial Instruments with the Firm are not undertaken on a recognised exchange, rather they are undertaken through the Firm's Trading Platform and, accordingly, they may expose the Client to greater risks than regulated exchange transactions. Therefore, the Firm may not execute an order, or it may change the opening or closing price of an order in certain cases including but not limited to instances of a technical failure of the trading platform. The terms and conditions and trading rules are established solely by the counterparty which in this case is the Firm. The Client is obliged to close an open position of any given Financial Instruments during the opening hours of the Firm's Trading Platform. The Client also has to close any position with the same counterparty with whom it was originally entered into, thus the Firm.

Monitor and Review

1. The Firm will monitor and assess on a regular basis the effectiveness of this Policy and the order of its order execution arrangements and, in particular, the execution quality of the procedures explained in the Policy in order to deliver the best possible result for the client, and, where appropriate, the Firm reserves the right to correct

any deficiencies in this Policy and make improvements to its execution arrangements.

2. In addition, Firm will review the Policy as well as its order execution arrangements at least annually. A review will also be carried out whenever a material change occurs that affects the ability of the Firm to continue to the best possible result for the execution of its client orders on a consistent basis using the venues included in this Policy.

The Firm will notify its affected clients on any material changes in its Policy or order execution arrangements.

Client Consent

1. When establishing a business relation with the Client, the Firm is required to obtain the Client's prior consent to this Policy.

2. By entering into the Client Agreement, the Client provides the consents referred to in paragraph 6.1 where the Client is informed that any orders placed with the Firm for the Financial Instruments offered by the Firm, the Firm acts as the principal and the Firm is the sole Execution Venue which is a non-regulated market.

Important Information

1. There may be specific leverage limits on the instruments available. For more information please visit our website.

2. On some trading platforms hedging may not be permitted. In the event a Client opens a second position on the same instrument, this will be netted-off against the existing open position.

Example: If client has an open BUY position of 2 lots EURUSD and then enters a sell position of 1 lot EURUSD, these positions will net as they are the

same currency pair, resulting in the client having a remaining position of BUY 1 lot EURUSD and a realized P/L from the 1 lot position closed due to the netting.

3. CFDs are not eligible for sale in certain jurisdictions or countries. The Policy is not directed to any jurisdiction or country where its publication, availability or distribution would be contrary to local laws or regulations, including the United States of America. The Policy does not constitute an offer, invitation or solicitation to buy or sell CFDs. It may not be reproduced or disclosed (in whole or in part) to any other person without prior written permission. The Policy is not intended to constitute the sole basis for the evaluation of the client's decision to trade in Contracts for Difference (CFDs).

FAQs
